

Robert (Bob) Smerker is president of PrismaTek Corporation, a consulting organization specializing in database design and application development. Bob has accumulated 20 years of IT experience, including 13 years of experience working with the Oracle Database and development toolset (Designer, Developer, Discoverer, JDeveloper, and PL/Sql). Most recently, he has focused on Java development, JSP, XML, and Web development.

Bob has served as Project Leader, Data Modeler, Analyst, and/or Developer as the job required. As the senior Oracle developer on many projects, he has mentored many of the junior programmers on the team. In addition to possessing outstanding technical skills, Bob is highly motivated, organized, and detail oriented. Outside of the workplace, he is active in the Lower Macungie Youth Association and Emmaus Youth Ice Hockey Club.

Bob would value an opportunity to meet and discuss any contracting opportunities that may be available at your company. Resume available upon request.
